SKILLS

- **Offensive security** :
Nmap, Hydra, Metasploit, Wireshark
- **Network security / defensive** :
Firewall, SSH, TCP/IP/UDP
- **DevOps / Containerisation** :
Docker, GitHub Actions (CI/CD & Pipeline)
- **Software development** :
Python, Java, C#, C++, C
- **Web development** :
JavaScript, HTML, CSS, PHP
- **Databases** :
SQL, MySQL, SQLite, Oracle, UML, Looping, MocoDo
- **GIT** :
GitHub, GitLab, Bash + GUI
- **Tools** :
Flutter, Godot, React Native, Unity

SOFT SKILLS

- **Teamwork** : Collaboration with designers and developers
- **Versatility** : Security, Development, Networks
- **Teaching** : Private tutoring in person and remotely

LANGUAGES

- **French** (native language)
- **English** (C1 level)

HOBBIES

- **Music** : Piano (classical, pop, indie) since 2012
- **Sport** : Calisthenics

PROFESSIONAL EXPERIENCE

Software Engineering & Systems Security - Simutech uae 2026

Software engineering internship and cloud systems & infrastructure hardening.

- Post-attack investigation, vulnerability patching and VPS infrastructure hardening
- C# development & design of a measurement post-processing application, API testing & flow analysis

Tutor & Private Teacher - IUT Paris-Saclay & Independent 2024 / 2026

Tutoring and academic support.

- Teaching Linux systems and C++ development (Computer Science students)
- Private lessons in Mathematics and Computer Science (high school level), and homework help

IT PROJECTS

File Sharing Service « Paired » 2026

Zero-trust P2P / TURN file transfer architecture and anonymous messaging.

- E2EE messaging with ECDH-256 and SHA-256
- Stateless system with automated session cleanup via Firebase and Cloudflare Workers
- Automated deployment via CI/CD pipeline (GitHub) to Cloudflare Workers with peer-to-peer network routing

Social Network « Glyphe » 2025 / 2026

Web/mobile social network (Flutter, Firebase & Cloudflare) focused on privacy and content sharing.

- Cloud Security & AppSec: Strict access rules (Firebase Security Rules). Secure on-device key storage (Secure Storage)
- DevSecOps & CI/CD: Automated build and continuous deployment of the Web version via GitHub Actions to a dedicated infrastructure
- Storage & Distribution: Cloudflare R2 bucket management with flow control and secure Android APK distribution platform

Side Projects & Hackathons 2022 / 2026

Set of software development projects, web applications, and multiplayer video games.

- C# & Back-end proficiency: Application logic development (C# / Godot) and multi-user applications via Node.js (Discord API)
- Project management & Agility: Team collaboration during hackathons (Code Game Jam 2025/2026) under tight time constraints
- Publishing & Deployment: Commercial showcase websites (HTML/CSS/JS) and Android Play Store mobile app publication

EDUCATION

EFREI, Networks & Security major 2026 / 2029

Engineering cycle, Networks & Security major.

IUT d'Orsay, Computer Science DUT 2024 / 2026

Specialization in cybersecurity & networks, engineering mathematics option, english-speaking section.

Lycée Institution du Sacré-Cœur / Essouriau, General baccalaureate 2020 / 2023

With honours, specializing in Mathematics and Computer Science (NSI).
